INTRODUCTORY.

In presenting our Directory to the public, we desire to state that the information it contains has been collected by a careful and thorough canvass of the city. Extreme care and patience have been used to make the book complete and reliable, and we feel confident that the public which has been so courteous in granting its assistance will be not less appreciative in its reception of our work.

Attention is invited to the fact that our age limit, sixteen years, is the lowest used by any Directory firm. Boys and girls often go out to work at this age, and it cannot fail to add to the value of the book if they are listed. Another distinctive feature of our work is the indication of the total size of families by a numeral following the family group. The extra trouble and expense of this information is justified by its great convenience to users of the Directory.

In this connection, a word of acknowledgement is due to those whose liberal patronage have made the book possible. We are indebted, also, to the local press, whose courtesies have been freely extended and valuable in many ways. There is an obligation resting too on the people at large. The principal expense of a new Directory is borne by the business men who advertise, and considering the public spirit they have shown in supporting this enterprise, we would respectfully suggest that it is "up to" the public to READ THE ADVERTISEMENTS!

SKELLEY AND REDFIELD,

Compilers.

INTRODUCTORY.

In presenting our Directory to the public we desire to state that information is contained herein has been collected by a careful and thorough search of the city. Extreme care and patience have been used to make the book complete and reliable, and we feel confident that the public which has been so generous in granting its assistance will be not less appreciative in its reception of our work.

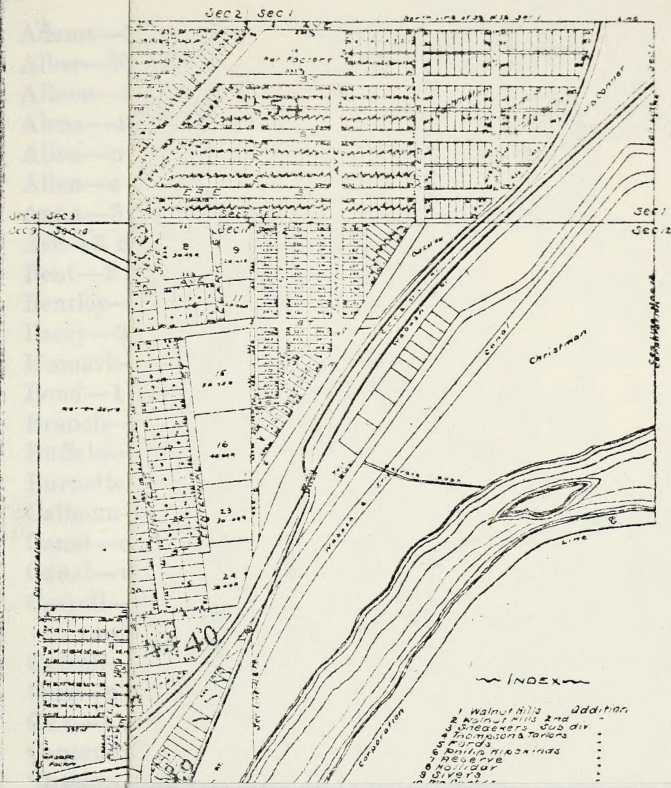

Attention is invited to the fact that our age book, sixteen years is the lowest used by any Directory firm. Boys and girls often go out to work this age, and it cannot fail to add to the value of the book if they are taken. Another distinctive feature of our work is the inclusion of the total of families by a numeral following the family group. The entire family and expense of this information is justified by its great convenience to use of the Directory.

In this connection, a word of acknowledgment is due to those who liberal patronage have made the book possible. We are indebted, also, to the local press, whose courtesies have been freely extended and valuable in many ways. There is an obligation resting too on the people at large. The principal expense of a new Directory is borne by the business men who advertise, and considering the public spirit they have shown in supporting this enterprise, we would respectfully suggest that it is "up to" the public to READ THE ADVERTISER.

INTRODUCTORY.

In presenting our Directory to the public we desire to state that information is contained herein has been collected by a careful and thorough canvass of the city. Extensive time and patience have been used to make the book complete and reliable, and we feel confident that the public which has been so courteous in granting its assistance will be not less appreciative in its reception of our work.

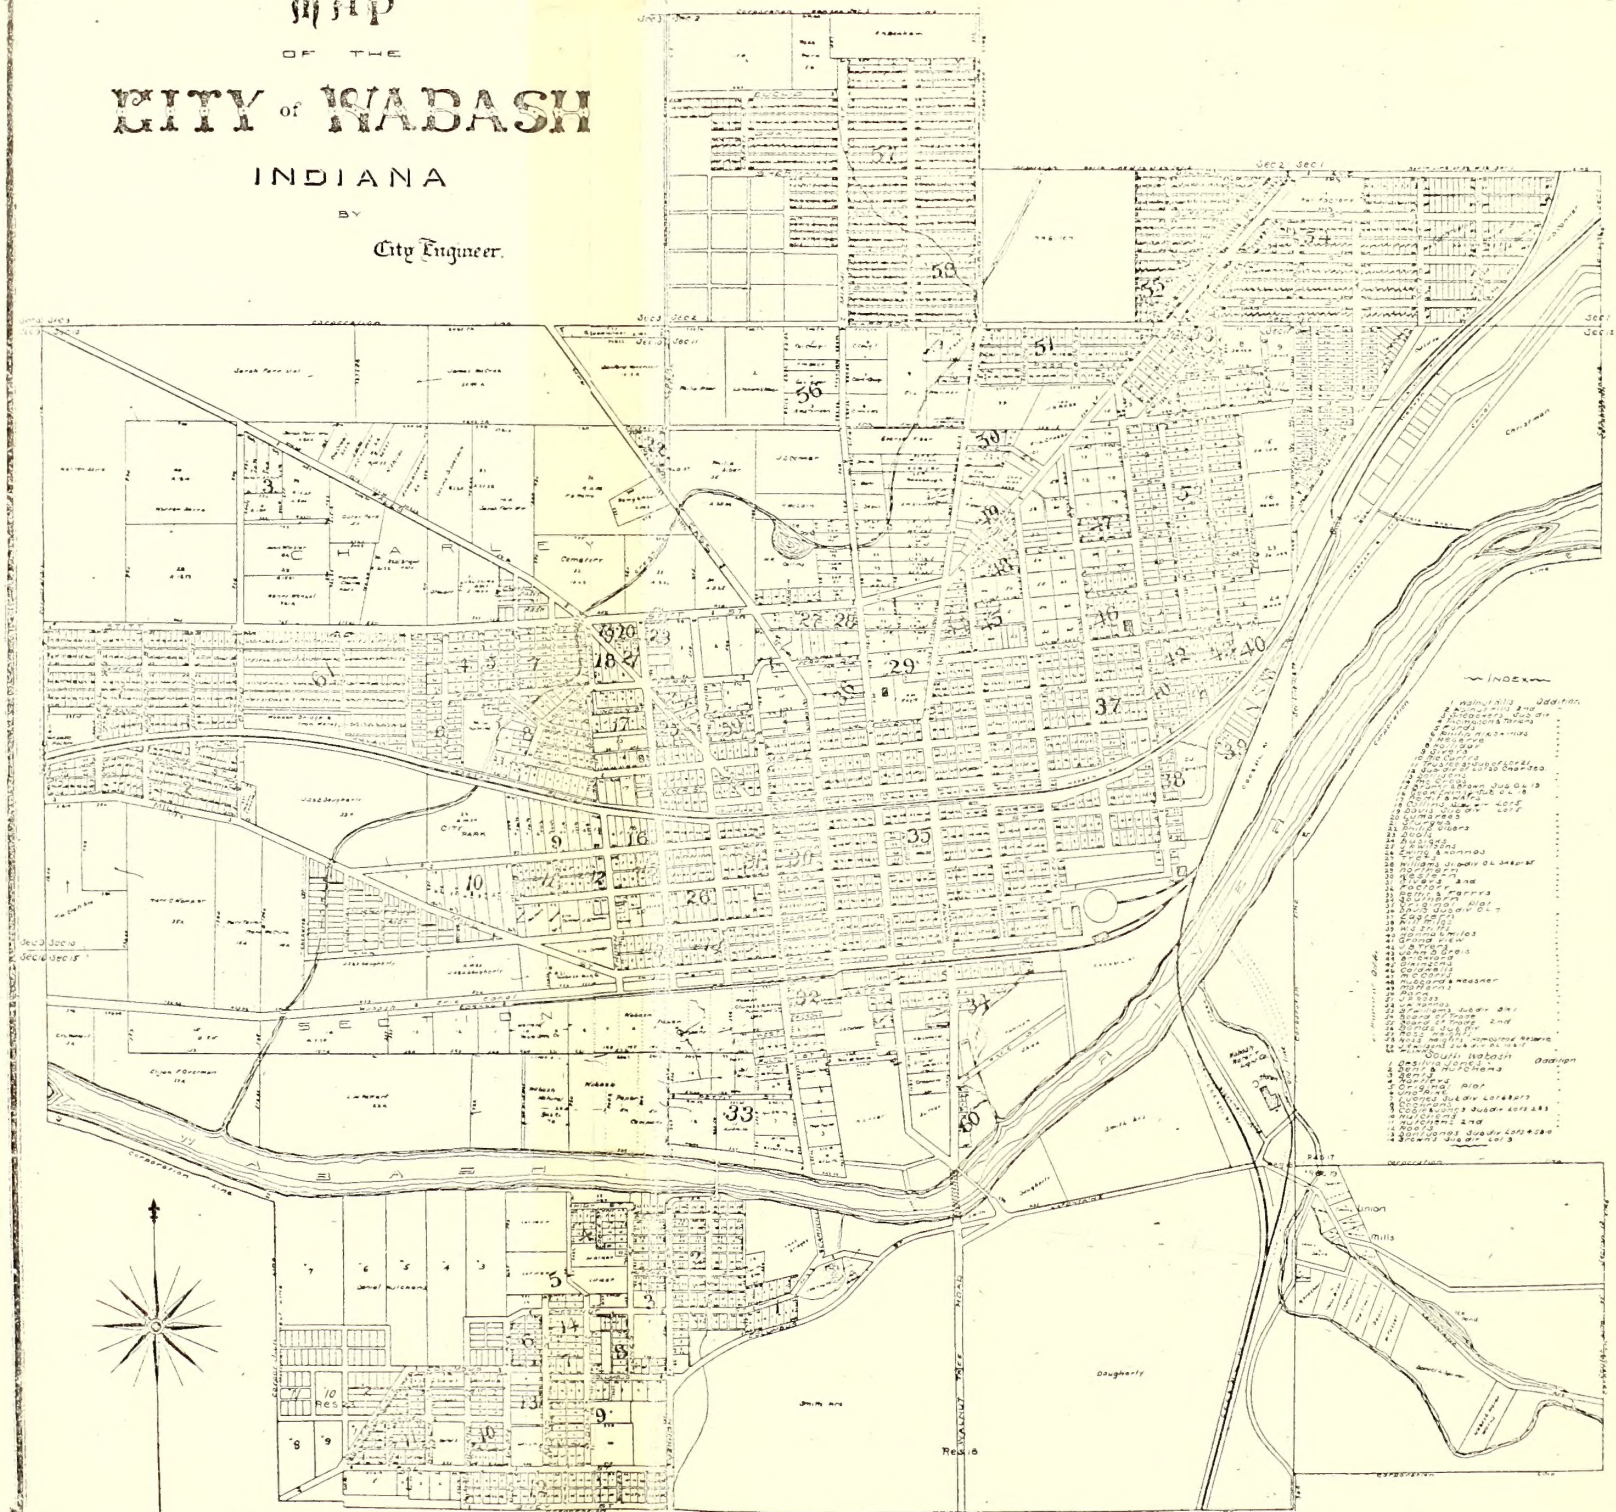

Attention is invited to the fact that our age half, sixteen years, is the lowest used by any Directory firm. Boys and girls often go out to work this age, and it cannot fail to add to the value of the book if they are listed. Another distinctive feature of our work is the inclusion of the total of families by a numeral following the family group. The extra trouble and expense of this information is justified by its great convenience to users of the Directory.

In this connection a word of acknowledgment is due to those who liberal patronage have made the book possible. We are indebted, also, to the local press, whose courtesies have been freely extended and valuable in many ways. There is an obligation resting too on the people at large. The principal expense of a new Directory is borne by the business men who advertise, and considering the public spirit they have shown in supporting this enterprise, we would respectfully suggest that it is "up to" the public to READ THE ADVERTISEMENTS!
